

Our Aims and Values:

At Overstone Primary School we aim to inspire children to become enthusiastic and capable learners.

All our children are encouraged to be thoughtful and reflective, to understand their place in the world and to set themselves high standards both in terms of their commitment to work and discipline.

Each child will discover that learning takes place beyond the classroom, and value the opportunities offered by the wider community and other establishments as chances to learn.

Our children are encouraged to adopt a positive mindset and use determination and perseverance to overcome challenges – not seeing them as problems – and take pride in all that they achieve.

Overstone Primary School is a small school with big ideas and high ambitions. The nature of our school means that we are able to get to know our families and children extremely well and the strong family feel of our school is something we are incredibly proud of.
